ABOUT

Aspiring AI and Game Developer with experience in computer vision, deep learning, and machine learning model development. Built and evaluated multiple CNN-based solutions for medical imaging and computer vision tasks. Passionate about developing intelligent systems and interactive gaming experiences.

EDUCATION

MCA Rajiv Gandhi Institute of Technology affiliated to Kerala Technical University	08/2023 – 05/2025 Kottayam, India
BCA Saintgits College of Applied Sciences affiliated to MG University	09/2020 – 05/2023 Kottayam, India

PROJECTS

Brain Tumor Detection and Classification using Convolutional Neural Networks

- Developed and compared 12 CNN architectures for multi-class MRI tumor classification with **custom dataset**
- Achieved 95.6%** accuracy on the best-performing model, and **97% accuracy** with **ensemble method**
- Developed front end for model deployment

Brain Tumor Detection using Machine Learning

- Binary classification model built using ML and CNN, with **95% accuracy** to detect tumor present or not

Mask Detection Using YOLO

- Model using YOLO to check if person is wearing mask or not, from live video stream

Chatbot website using API integration

- Developed a chatbot for Smartphone troubleshooting using gemini flash api integrated website
- Trained custom NLP model

TECH STACK

- | | |
|----------------------------------|-------------------------------|
| • Tensorflow, Keras, Pytorch, | • NLP, Regression Models, CNN |
| • Jupyter Notebook, Google Colab | • Git |
| • FastAPI, Streamlit, Flask | • GenAI |
| • Godot, gdscrip | • Python, HTML,CSS,JS |

TECHNICAL SKILLS

Data preprocessing

- Experience in data preprocessing with large datasets and image processing.

Model Training and Evaluation

- Experience in evaluation of built model using performance metrics and visualization

Game Concept Documentation

- Designed gameplay systems and progression mechanics for a football knowledge-action game.
- Designed a football ecosystem simulator concept focusing tournament structures and career-mode redesign.

COURSES

Prompt Engineering MOOC

Infosys Springboard

Database Management System

IIT Kharagpur, NPTEL
